WEEKLY JOURNAL EXPERIENCES

For the Month of MAY

NAME OF INTERN	ARDEN B. MECASIO	COOPERATING AGENCY
COURSE / SECTION	BS INFORMATION TECHNOLOGY 4B	EULOGIO "AMANG" RODRIGUEZ INSTITUTE OF SCIENCE AND TECHNOLOGY (EARIST)
CONTACT NO.	09561692738	
DEPARTMENT/ OFFICE ASSIGNED	MANAGEMENT INFORMATION SYSTEM (MIS)	COOPERATING AGENCY ADDRESS
DEPARTMENT/ OFFICE CONTACT NO.	136	NAGTAHAN ST. SAMPALOC, MANILA
DEPARTMENT/ OFFICE EMAIL ADDRESS	mis.support@earist.edu.ph	

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>May 04, 2026</u> <i>Date</i>	This week, I fixed all Certificate of Registration modules and created a new module called Upload Enrolled Subject. I also tested the Applicants, Course Management, and Admission Management modules to ensure they are working properly. 	I learned the importance of checking each module carefully to ensure that its functions work properly. I also gained a better understanding of how Certificate of Registration processes work and how testing helps identify issues in Applicants, Course Management, and Admission Management modules.	Morning IN: OUT:	IN: 7:46 AM OUT: 12:00 PM
			Afternoon IN: OUT:	IN: 1:00 PM OUT: 7:00 PM
			No. of Hrs Rendered	10 hours
Tuesday <u>May 05, 2026</u> <i>Date</i>	I modified the Email Template Manager module to use the email saved in the database instead of the .env file. I also added a branch filter in the Announcement module, fixed the branch filter in the Admission Schedule Tile module, and updated the create and edit access for the School Year, Semester, and Section modules. 	I learned the importance of using database-stored settings to make modules easier to manage and update. I also gained a better understanding of how filters, access controls, and module permissions help improve data organization and system usability.	Morning IN: OUT:	IN: 7:39AM OUT: 12:00 PM
			Afternoon IN: OUT:	IN: 1:00 PM OUT: 7:00 PM
			No. of Hrs Rendered	10 hours

College of Computing Studies

Computer Science Department

Wednesday <u> </u> <i>Date</i>			Morning IN: OUT: Afternoon IN: OUT: No. of Hrs Rendered	
Thursday <u>May 07, 2026</u> <i>Date</i>	I added audit logs to the Login, Login Enrollment, Register, Program, Program Tagging, and Student Requirement modules. I also added audit logs to the Document Verification Schedule Management module.	I learned that audit logs are important for tracking user actions and system activities across different modules. I also gained a better understanding of how login, registration, program management, student requirements, and schedule management processes should record detailed actions to improve monitoring, accountability, and easier checking of system changes.	Morning IN: OUT: Afternoon IN: OUT: No. of Hrs Rendered	IN: 7:56AM OUT: 12:00 PM IN: 1:00 PM OUT: 8:00 PM 11 hours
Friday <u> </u> <i>Date</i>			Morning IN: OUT: Afternoon IN: OUT: No. of Hrs Rendered	
TOTAL TIME EARNED FOR THE WEEK:				31 hours

CERTIFIED CORRECT:

MR. DHANI I. SAN JOSE

WEEKLY JOURNAL EXPERIENCES

For the Month of **MAY**

NAME OF INTERN	ARDEN B. MECASIO	COOPERATING AGENCY
COURSE / SECTION	BS INFORMATION TECHNOLOGY 4B	EULOGIO "AMANG" RODRIGUEZ INSTITUTE OF SCIENCE AND TECHNOLOGY (EARIST)
CONTACT NO.	09561692738	
DEPARTMENT/ OFFICE ASSIGNED	MANAGEMENT INFORMATION SYSTEM (MIS)	COOPERATING AGENCY ADDRESS
DEPARTMENT/ OFFICE CONTACT NO.	136	NAGTAHAN ST. SAMPALOC, MANILA
DEPARTMENT/ OFFICE EMAIL ADDRESS	mis.support@earist.edu.ph	

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>May 11, 2026</u> <i>Date</i>	I fixed errors in the Admission, Account Management, Faculty, and Enrollment modules. I also modified the audit logs to display more detailed log information for recorded system actions, including changes, updates, and activities made within the related modules. 	I learned the importance of checking errors across different modules to ensure that each part of the system works properly. I also gained a better understanding of how detailed audit logs help monitor system activities, track changes, and make it easier to identify actions performed within the Admission, Account Management, Faculty, and Enrollment modules.	Morning	IN: 7:47 AM OUT: 12:00 PM
			Afternoon	IN: 1:00 PM OUT: 7:15 PM
			No. of Hrs Rendered	10 hours
Tuesday <u>May 12, 2026</u> <i>Date</i>	I fixed the Student Scholarship List module to save students under the scholarship selected by the user. I also modified the COR Exporting module to make the bulk export of Certificate of Registration files faster by creating a dedicated module for rendering the files to be exported.	I learned that improving the function and module performance requires organizing the process and logic better, such as separating the rendering function into its own module, minimizing repeated code, and making the export process easier to manage, faster to run, and more reliable when handling multiple files such as exporting student certificate of registration in bulk.	Morning	IN: 7:42 AM OUT: 12:00 PM
			Afternoon	IN: 1:00 PM OUT: 7:00 PM
			No. of Hrs Rendered	10 hours
Wednesday <u> </u> <i>Date</i>			Morning	
			Afternoon	
			No. of Hrs Rendered	

College of Computing Studies

Thursday <u>May 14, 2026</u> <i>Date</i>	I deleted unused files in the project, including images, XLSX files, DOCS files, PDF files, and unused modules. I also reviewed the project folders and removed unnecessary resources to keep the project files cleaner and more organized. 	I also learned the importance of regularly checking and cleaning project files to keep the system organized and easier to maintain. I Also learn that unused file such as images, documents, spreadsheets, PDF files, modules and other unnecessary resources can make a project harder to manage and review.	Morning IN: OUT: Afternoon IN: OUT:	IN: 7:56 AM OUT: 12:00 PM IN: 1:00 PM OUT: 7:07 PM
			No. of Hrs Rendered	10 hours
Friday <i>Date</i>			Morning IN: OUT: Afternoon IN: OUT:	
			No. of Hrs Rendered	
TOTAL TIME EARNED FOR THE WEEK:				30 hrs

DEPARTMENT/ OFFICE EMAIL ADDRESS	mis.support@earist.edu.ph	

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>May 18, 2026</u> <i>Date</i>	I modified the audit logs by adding custom messages for each action in the Course Tagging module. I also connected the Signature module to the Registrar Examination Profile module and fixed the Student Requirements module to use the person_id saved in local storage when fetching data. 	I learned the importance of adding clear and custom audit log messages to properly track each action the user made in a module such as the Course Tagging module. I also gained a better understanding of how module connections and correct parameter usage, such as using person_id from local storage, improved data fetching accuracy and system functionality.	Morning IN: OUT: Afternoon IN: OUT: No. of Hrs Rendered	IN: 8:07 AM OUT: 12:00 PM IN: 1:00 PM OUT: 7:01 PM 9 hours
Tuesday <u>May 19, 2026</u> <i>Date</i>	I fixed the errors in the Applicant Profile and Applicant Dashboard modules. That error was that the exam schedule and qualifying/interview schedule were not displayed properly in the Applicant Dashboard module.	I realized that fixing display errors is not only about making the data appear on the screen, but also about making sure the correct information is shown to the right user.	Morning IN: OUT: Afternoon IN: OUT: No. of Hrs Rendered	IN: 7:55 AM OUT: 12:00 PM IN: 1:00 PM OUT: 8:24 PM 11 hours

			Rendered	
Thursday <u>May 21, 2026</u> <i>Date</i>	I modified the layout and design of the Student Dashboard module to display the necessary student information. This includes the Certificate of Registration, subject status summary, announcements, and other important details that students need to view in their dashboard.	I gained a better understanding of how dashboard layout and design affect the way students view important information. I also learned the importance of organizing data clearly, such as the Certificate of Registration, subject status summary, announcements, and other details, so students can easily understand and access what they need.	Morning IN: OUT: Afternoon IN: OUT:	IN: 7:41 PM OUT: 12:00 PM IN: 1:00 PM OUT: 8:00 PM

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>May 25, 2026</u> <i>Date</i>	I started learning how to upload the database, frontend, and backend source code to a server using Linux, specifically Fedora 44. I also explored the basic server setup process needed to prepare the project files for deployment. 	I learned the basic process of preparing a project for server deployment using Linux, specifically Fedora 44. I also gained a better understanding of how the database, frontend, and backend source code are uploaded and managed on a server as part of setting up a working project environment.	Morning IN: OUT: Afternoon IN: OUT: No. of Hrs Rendered	IN: 7:46 AM OUT: 12:00 PM IN: 1:00 PM OUT: 7:00 PM 10 hours
Tuesday <u>May 26, 2026</u> <i>Date</i>	I fixed the display of the Department Section Tagging module and updated its CRUD operations. I also checked the module functions to ensure that creating, viewing, updating, and deleting department section records worked properly. 	I gained a better understanding of how proper display and CRUD operations affect the accuracy and usability of a module. I also learned the importance of checking each function carefully to ensure that department section records can be created, viewed, updated, and deleted correctly. Wednesday _____ Date			Morning IN: OUT: Afternoon IN: OUT:	
			No. of Hrs Rendered	
Thursday May 28, 2026 Date	I added a template feature for user access and fixed the import/export function for faculty accounts. I also fixed errors in the Payment Exporting module and checked the related functions to ensure the account import, account export, and payment export processes worked properly.	I gained a better understanding of how user access templates can make account management more organized and efficient. I also learned the importance of testing import and export functions carefully, since errors in these processes can affect faculty account records and payment exporting results. WEEKLY JOURNAL EXPERIENCES

For the Month of JUNE

NAME OF INTERN	ARDEN B. MECASIO	COOPERATING AGENCY
COURSE / SECTION	BS INFORMATION TECHNOLOGY 4B	EULOGIO "AMANG" RODRIGUEZ INSTITUTE OF SCIENCE AND TECHNOLOGY (EARIST)
CONTACT NO.	09561692738	
DEPARTMENT/ OFFICE ASSIGNED	MANAGEMENT INFORMATION SYSTEM (MIS)	COOPERATING AGENCY ADDRESS
DEPARTMENT/ OFFICE CONTACT NO.	136	NAGTAHAN ST. SAMPALOC, MANILA
DEPARTMENT/ OFFICE EMAIL ADDRESS	mis.support@earist.edu.ph	

DAY/DATE	DESCRIPTION OF ACTIVITIES	INSIGHTS GAINED	SESSION	TIME
Monday <u>June 1, 2026</u> <i>Date</i>	I fixed the bug in the Department Section Panel module where duplicate data was displayed even though there were no duplicate records in the database. I also checked the related data display function to ensure that the module only shows the correct records. 	I gained a better understanding that duplicate data displayed on the client side does not always mean there are duplicate records in the database. I also learned the importance of checking the data display logic carefully to ensure that the module shows accurate and correct records.	Morning IN: OUT: Afternoon IN: OUT: No. of Hrs Rendered	IN: 7:46 AM OUT: 12:00 PM IN: 1:00 PM OUT: 7:00 PM 10 hours
Tuesday <u>June 2, 2026</u> <i>Date</i>	I fixed the loading speed of the Class Roster module by using virtualized scrolling, pagination, and database indexing. I also optimized how the records are loaded and displayed to improve the module's performance when handling large amounts of data. 	I learned that improving loading speed is not only about changing the frontend display, but also about optimizing how data is fetched and managed from the database. Using virtualized scrolling improves the display by rendering only the needed items, while pagination controls the amount of data loaded at once, and the database indexing helps the system retrieve students records faster and more efficiently.	Morning IN: OUT: Afternoon IN: OUT: No. of Hrs Rendered	IN: 7:49 AM OUT: 12:00 PM IN: 1:00 PM OUT: 5:27 PM 8 hours

Wednesday <u> </u> <i>Date</i>			Morning IN: OUT: Afternoon IN: OUT:	
			No. of Hrs Rendered	
Thursday <u>June 4, 2026</u> <i>Date</i>	I configured the uploaded project to connect with Nginx and added a domain system instead of using a public IP address. I also learned how to create an SSL certificate in Fedora 44 Linux so the domain can use HTTPS. 	I gained a better understanding of how Nginx helps connect a server to a domain and manage web traffic properly. I also learned the importance of using an SSL certificate because it allows the domain to use HTTPS, making the website more secure and professional compared to using only an IP address.	Morning IN: OUT: Afternoon IN: OUT:	IN: 8:01 AM OUT: 12:00 PM IN: 1:00 PM OUT: 6:01 PM
			No. of Hrs Rendered	8 hours
